...Cara Maitland...

Who attended  
Venipuncture Course  
On 14/08/2022

In Manchester

The delegate demonstrated a clear understanding and shown competency in the skill of venipuncture.

The delegate understands that they must produce a IO-case competency log on completion of the  
course

Signature...V Phillips.....

Date...14/08/22

Printed name Vicki Phillips...

Aim Provide adequate training in order to perform the procedure of venepuncture in a safe and effective way.

Learning Outcomes On successful completion of the course the participant will be able to demonstrate the following.

- Understanding of the Venus network and how it works
- Anatomy and Physiology of the veins, arteries and the nerves in the arms
- Selection of the correct equipment required for the task.
- Patient care and wellbeing during the procedure.
- Correct preparation of the patient
- Performing venepuncture under supervision for the first IO cases and logging the series of events.

Assessment The participant would have demonstrated correct clinical skills when performing venepuncture on a dummy arm and hand

Ongoing The participant will log IO cases of venepuncture and maintain the log for competency purposes. The participant will keep up to date with any relevant or new guideline that come into action regarding venepuncture
